

Groveland Community Preservation 2024 Projects Summary

<u>2024 Projects</u>	<u>Cost</u>	<u>Category</u>
2024 Groveland CPC Community Garden Design Phase	\$ 4,950	Recreation
2024 Groveland CPA Washington Hall on National Registry	\$ 6,600	Historic Preservation
2024 Groveland CPC Shade & Seating at the Pines	\$ 21,426	Recreation
2024 Groveland CPC Town Clerk Scan Documents	\$ 33,000	Historic Preservation
2024 Groveland CPC Perry Park Design Phase	\$ 30,800	Recreation
2024 Groveland CPC Pines Parking Enhancements	\$ 523,110	Recreation
2024 Groveland CPC Shanahan Field Parking	\$ 886,800	Recreation

Community Garden Design Phase

Phase I will create a plan to convert the old dog park into a community garden space including costs for raised beds, infrastructure, and permaculture. The Groveland Community Garden will promote gardening as a recreational activity, enhance sustainability through growing food, promote community educational and intergenerational opportunities, and beautify the Pines.

Washington Hall on National Registry

The Groveland Historical Society is requesting funds to place Washington Hall on the National Historic Register of Historic Places.

Shade & Seating at the Pines

This project will provide additional seating and shade at the Pines Recreation Area for people visiting the park, using the playground or splashpad, and those watching practice/games on the small utility field.

Town Clerk Scan Documents

This is a conversion project to digitally transform Groveland Town Report records to be secure and accessible. The project will scan 21 hardcover, 53 soft bound and 46 staple bound books of Town of Groveland Annual Reports. It will provide access for town employees and residents to view and research the historical records.

Perry Park Design Phase

This project is an effort to restore a small park and memorial of historical significance for the purpose of public enjoyment, education, and recognition. During the initial phase a consultant will be hired to design the improvements and provide cost estimates for the future work including parking improvements and invasive plant removal.

Pines Parking Enhancements

This project will provide additional parking and final paving and markings of parking spaces at the Pines to improve safety, enhance circulation and maximize space while offering accessibility to a town owned recreational facility. This project would also provide a pedestrian connection between the Town Hall complex parking lot and the Pines to increase parking and access between both areas.

Shanahan Field Parking

Shanahan Field is primarily used by Groveland Youth Soccer, where parking is limited on site, forcing parents and children to park on the street, creating a dangerous traffic situation. This project proposes to create designated parking and improve the vehicular circulation at the site to provide a safer environment for recreational field users. It also includes drainage, landscaping, and lighting.
