

RIVERVIEW CEMETERY COMMISSION

Minutes August 21, 2018

Commissioners Present: Rock Dower, Michael Kastrinelis

Others Present: Chuck Desrosiers, Foreman

Call to Order: at 16:35 by Chairman Rock Dower

Another self-propelled Toro mower has been purchased. One of the weed whackers had been rebuilt. A discussion was held on keeping the Walker mower or not, it will depend on how much it will cost to keep it operating.

Foreman Chuck D. concerns: Size of area around the grave stones. They seem to be quite large, making mowing difficult. Trees and shrubs are way too large, which is compromising the head stones next to them. He will be getting the truck inspected and checking with AutoFair Ford regarding the airbag recall. He stated that he will be looking at the washed our areas to see how they can be repaired. He wondered if the part-time help could work 4 days a week, splitting the time up not to exceed 19 ½ hours. The Commission told him he could set the times for the part-time help as he sees fit. He will make up a new inventory list. Loam is needed for fill in spots at the cemetery.

Mike K. will be setting up a meeting with the engineering firm CME to go over the new area to be engineered. CME will meet with Mike K. and Chuck D.

A motion by Mike K. and 2nd by Rock D. to increase the cremation burial to \$650.00 due to the price increase of the cement vaults. Vote was Unanimous. A motion by Rock D. and 2nd by Mike K. was made to increase R. Polizotti's pay from \$12.00 to \$15.00 per hour, as he has the experience to fill in for the Foreman. Rock D. reported that he purchased a safety vest and donated another one.

Motion to Adjourn: A motion and 2nd to adjourn was made at 18:09. Vote was Unanimous

Respectfully submitted, Rock Dower, Chairman
