TOWN OF GROVELAND, MASSACHUSETTS

MANAGEMENT LETTER

JUNE 30, 2022

Powers & Sullivan, LLC
CPAs AND ADVISORS

100 Quannapowitt Parkway, Suite 101
Wakefield, Massachusetts 01880
T. 781.914.1700 | F. 781.914.1701
info@pas.cpa | www.pas.cpa

To the Honorable Board of Selectmen
Town of Groveland, Massachusetts

In planning and performing our audit of the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Groveland, Massachusetts as of and for the year ended June 30, 2022, (except for the Groveland Municipal Light Department which is as of and for the year ending December 31, 2021) in accordance with auditing standards generally accepted in the United States of America, we considered the Town's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

However, during our audit we became aware of other matters that we believe represent opportunities for strengthening internal controls and operating efficiency. The memorandum that accompanies this letter summarizes our comments and suggestions concerning those matters.

We will review the status of these comments during our next audit engagement. We have already discussed these comments and suggestions with various Town personnel and will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations.

This communication is intended solely for the information and use of management of the Town of Groveland, Massachusetts, and others within the organization, and is not intended to be and should not be used by anyone other than these specified parties.

CONTINUING MATTERS PREVIOUSLY REPORTED

BANK RECONCILIATIONS

Prior Comment

One of the most effective internal controls to detect and correct errors in a timely manner is a timely process of reconciling bank balances to the cash book in the Treasurer's office and then comparing those reconciled Treasurer's cash book balances to the Town's general ledger. Performing these monthly reconciliations helps to ensure that errors are detected and corrected timely and that records are complete and accurate.

The Town maintains approximately 50 bank accounts, most of which are reconciled to the Town Treasurer's cash book on a timely basis. However, we have previously noted the following accounts had not been fully reconciled.

- For the online collections account with Century Bank, at June 30, 2021, there was an unreconciled difference between the bank balance and the book balance maintained by the Treasurer totaling \$44,000.
- For the vendor account with Eastern Bank, at June 30, 2021, there was an unreconciled difference between the bank balance and the book balance maintained by the Treasurer totaling \$326,000.

The previously noted unreconciled variances were the result of significant turnover in key financial positions. The current members of the Town's financial team have been working to reconcile the accounts to a consistent unidentified variance.

Current Status

Partially Resolved – At June 30, 2022, the unreconciled difference in the online collections account and vendor account totaled \$44,000 and (\$285,000), respectively. The Town has developed the following timeline with respect to these variances:

- For the online collections account with Century Bank, the positive variance at June 30, 2022, totaling \$44,000 has been consistently reconciled to that unknown variance since March 2022.
- For the vendor account with Eastern Bank, the negative variance at June 30, 2022, totaling \$285,000 has been consistently reconciled to that unknown variance since May 2022 and in December 2022, the Town discovered a \$34,000 error from 2018, which was identified and corrected, resulting in a total variance of \$319,000. The Town plans to reconcile to the remaining variance on a consistent basis with a planned cut off of March 2023. This date reflects one year since the last warrant was paid out of that account and reflects the duration of valid checks subject to being cashed.

The Town plans to resolve these variances at the end of March 2023.

Continuing Recommendation

We continue recommend that the Town continue take the appropriate steps to ensure that the cashbook is accurately stated.

TAX TITLE

Prior Comment

Properties placed into tax title in accordance with Massachusetts General Law (MGL) represent the Town's interest to ensure future payment for unpaid taxes. Therefore, it is in the Town's interest to convert properties acquired through tax title into cash and to ensure that the list of tax title is accurate and updated appropriately.

In the previous year, the balance in the tax title receivables totaled \$520,000, and the properties listed in tax title had been there for many years.

Current Status

Resolved – During 2022, the Town has initiated communication with outside counsel to establish a process to resolve these old tax title receivables, and in 2022 the Town collected on a number of properties with outstanding balances. The Town plans to take the appropriate steps to foreclose on those properties in which the probability of collecting is remote.

FRAUD RISK ASSESSMENT

Prior Comment

The opportunity to commit and conceal fraud exists where there are assets susceptible to misappropriation and inadequate controls to prevent or detect the fraud. To address this risk, we recommend that the Town perform a risk assessment to identify, analyze, and manage the risk of asset misappropriation. Risk assessment, including fraud risk assessment, is one element of internal control. Thus, ideally, the Town's internal control should include performance of this assessment, even though our annual financial statement audits include consideration of fraud.

The fraud risk assessment can be informal and performed by a management-level individual who has extensive knowledge of the Town that might be used in the assessment. Ordinarily, the management-level individual would conduct interviews or lead group discussions with personnel who have extensive knowledge of the Town, its environment, and its processes. The fraud risk assessment process should consider the Town's vulnerability to misappropriation of assets.

When conducting the self-assessment, questions such as the following can be considered:

- What individuals have the opportunity to misappropriate assets? These are individuals who have access to assets susceptible to theft and to records that can be falsified or manipulated to conceal the theft.
- Are there any known pressures that would motivate employees with the opportunity to misappropriate assets? Pressures may relate to financial stress or dissatisfaction. In assessing whether these pressures may exist, the assessor should consider whether there is any information that indicated potential financial stress or dissatisfaction of employees with access to assets susceptible to misappropriation.
- What assets of the Town are susceptible to misappropriation?
- Are there any known internal control weaknesses that would allow misappropriation of assets to occur and remain undetected?

- How could assets be stolen? Assets can be stolen in many ways besides merely removing them from the premises. For example, cash can be stolen by writing checks to fictitious employees or vendors and cashing them for personal use.
- How could potential misappropriation of assets be concealed? Because many frauds create accounting anomalies, the perpetrator must hide the fraud by running through an adjustment to another account. Generally, fraud perpetrators may use accounts that are not closely monitored.

Current Status

Unresolved - The Town has not yet developed or implemented a formal fraud risk assessment.

Continuing Recommendation

We continue to recommend that management develop and implement a fraud risk assessment program to identify, analyze, and manage the risk of asset misappropriation. Department heads should provide information detailing any activities within their departments that may lend themselves to potential fraud, i.e., identification of idle cash or collections that don't get turned over daily or instances where internal controls over Town assets are not in place or are not functioning as intended.

INTERNAL PROCEDURE MANUALS

Prior Comment

We noted that most departments do not maintain a formal internal procedure manual documenting day-to-day processing and controls. Since the Town is limited in the number of employees, the Town is at risk if critical tasks cannot be completed due to an extended absence.

Current Status

Resolved – The Town has formally adopted an internal procedure manual.

DOCUMENTATION OF INTERNAL CONTROLS

Prior Comment

In December 2013, the U.S. Office of Management and Budget (OMB) issued *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) in an effort to (1) streamline guidance for federal awards while easing the administrative burden and (2) to strengthen oversight over the expenditure of federal funds and to reduce the risks of waste, fraud and abuse.

The Uniform Guidance supersedes and streamlines requirements from eight different federal grant circulars (including OMB Circular A-133) into one set of guidance. Local governments were required to implement the new administrative requirements and cost principles for all new federal awards and to additional funding to existing awards made after December 26, 2014 (fiscal year 2016).

In conformance with Uniform Guidance, the non-Federal entity must: (a) Establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

These internal controls should be in compliance with guidance in “Standards for Internal Control in the Federal Government” issued by the Comptroller General of the United States (the Green Book) and the “Internal Control Integrated Framework”, issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Management is responsible for internal controls and to see that the entity is doing what needs to be done to meet its objectives. Governments have limited resources and constraints on how much can be spent on designing, implementing, and conducting systems of internal control. The COSO Framework can help management consider alternative approaches and decide what action it needs to take to meet its objectives. Depending on circumstances, these approaches and decisions can contribute to efficiencies in the design, implementation, and conduct of internal control. With the COSO Framework, management can more successfully diagnose issues and assert effectiveness regarding their internal controls, and, for external financial reporting, help avoid material weaknesses or significant deficiencies.

The COSO internal control framework must incorporate the 5 major components of internal control, while addressing the 17 principles of internal control that support the COSO framework. Refer to www.coso.org for articles describing the 5 components and their 17 principles in detail.

Management should evaluate and assess the government’s internal control system to determine whether: each of the five essential elements of a comprehensive framework of internal control is present throughout the organization; whether each element addresses all of the associated principles; and whether all five elements effectively function together.

Current Status

Unresolved – The Town has not yet documented its internal control system over federal awards in compliance with the COSO Internal Control Framework. Management intends to complete this process during 2023.

Continuing Recommendation

We recommend management follow the best practice for establishing and documenting their internal control system using the COSO Internal Control Framework.
